# How to French Press

.....

Measure out our Coarse Ground DARK roast  
plunger into your French Press as follows:

<u>French Press size:</u>	=	<u>Amount of Coffee</u>
3 cup	=	6 Tbl
4 cup	=	1/2 cup
8 cup	=	1 cup
12 cup	=	1 1/2 cup

Heat water to just shy of boiling. Do not boil.

Slowly pour hot water over grounds in French Press to make sure they all get wet. Continue pouring water to a min. of 1" from top of press.

Put lid/plunger on French Press and allow to brew for 4 minutes.

After 4 minutes slowly push plunger down until it reaches the bottom.

Enjoy!
